

UNITED STATES DEPARTMENT OF AGRICULTURE

Farm Service Agency  
Washington, DC 20250

Notice LP-1704

**For:** State and County Offices

**Determining Eligibility of Grain Sorghum Varieties**

**Approved by:** Deputy Administrator, Farm Programs

**1 Overview**

**A**

**Purpose**

To simplify and clarify the current eligible categories of grain sorghum, the following categories will be used to determine eligibility of grain sorghum for 1999 and subsequent crop years:

- **Category I.** Non-Tannin Sorghum for grain or silage/hay **is eligible** regardless of parentage or grain yield.
- **Category II.** Tannin Sorghum for grain or silage/hay **is eligible** regardless of parentage or grain yield, but if harvested for grain must be identity-preserved and reported.
- **Category III.** Tannin Sorghum used for pasture **is not eligible** for LDP's or any programs.

**Disposal Date**

October 1, 2000

**Distribution**

State Offices; State Offices relay to County  
Offices

## Notice LP-1704

### 2 Action

---

#### A State Office Action

State Office shall:

- immediately publicize the content of this notice to the maximum extent possible
  - instruct County Offices to immediately notify producers of the contents of this notice using all available sources.
- 

#### B County Office Review

County Offices shall review Exhibit 1 which lists those varieties which are ineligible for **any** program benefits.

---

#### C Effective Date

These changes shall be effective for the 1999 crop year.

For producers who were not afforded these opportunities because they harvested an ineligible commodity and sold or fed their production before these policy changes were made, County Offices shall:

- allow producers to request an LDP using CCC-666 LDP
  - for fed production, allow producers to certify to date of harvest and quantity
  - for sold production, obtain date of delivery and quantity from production evidence
  - use the LDP rate in effect on the date of delivery or harvest
  - obtain COC approval of all quantities and harvest dates
  - calculate LDP using the effective LDP rate for the applicable quantities.
- 

#### D Yield Determination

County Offices shall follow 8-LP, paragraph 536 on setting the yields for eligible varieties of grain sorghum. Actual production determinations should fairly reflect what a producer's anticipated yield would have been had that actual crop been harvested as grain.

---

#### E Obsolete Notice

Notice LP-1703 is obsolete.

---

**Ineligible Grain Sorghum Classification Guide**

Some varieties may be eligible in some States. Those varieties are indicated with the applicable State in parentheses.
